Abstract :-

For the first time in its history, the Nobel Prize committee awarded the Nobel prize in Physics to two climate scientists. This is for the work of Prof. Syukuro Manabe and Prof. Klaus Hasselmann "on the physical modelling of Earth's climate, quantifying variability and reliably predicting global warming". To celebrate this historic event, Divecha Centre for Climate Change is organizing lectures by Prof. J. Srinivasan and Prof. Ashwin Seshadri about the work of Prof Syukuro Manabe and Prof Klaus Hasselmann.
