Speaker Bio: -

Vikram Annappa, the Managing Director of Aequs Infra toys manufacturing industry with ecosystems situated in Koppal, North Karnataka with 400 Acres of land, plays a crucial role in the development and operation of industrial clusters and assets within the Aequs group. With a responsibility that extends over 1000 acres of industrial space and works on providing integrated growth support and solutions across the various companies under the Aequs umbrella. His 25 years of experience covers a wide range of areas, including conceptualization, commercial viability, supply chain management.

He holds a master’s degree in structural engineering and PGC industrial building design and development, from the University of Oklahoma-USA. International experience includes working in the United States, particularly in the field of industrial facilities.

Abstract: -

Toys are very much involved in the physical, mental and sociological development and well being of children. In manufacturing toys while gifting them one has to make sure their safety in chemical poisoning and detachable parts causing choking and ill health. Our AEQUS toy manufacturing sector have the vision, mission, values with transparency, trust and respect with all the safety feature.

India’s 1st toy cluster began at Koppal North Karnataka. We integrate the product design and manufacturing, injection moulding, painting and assembly, tooling design and manufacturing broad range of products like: Outdoor toy vehicles, Roleplay value toys, Figures, Basic dolls, Infant toys. We are planning to produce fashion dolls, indoor games, board games, plush toys. We follow environment protection by zero emission by 2025 with 100% green energy and adopt global standards and U.N’s sustainable development goals.

All are welcome!
